

# Rabb Retina Study Club

Wednesday, April 16, 2025

Moss Auditorium

909 S. Wolcott Ave.

Chicago, IL 60612

5:30PM – 8:45 PM

## Intended Audience:

Vitreo-Retinal Specialists of the Chicago area.

All attendees are encouraged to share their more challenging cases with their peers and to have open discussions of diagnosis, prevention and treatment of Vitreo-Retinal diseases.

***Case order is a first come/first to present!***

Vitreo-Retinal fellows and residents are encouraged to attend.

## Course Objectives:

Upon completing this activity, participants should be able to:

1. Relate clinical diagnosis with fluorescein and photomicrograph findings.
2. Cite established and new strategies in the diagnosis of vitreo-retinal disease.
3. Discuss management and future directions of treatment of complex vitreo-retinal disease.
4. When applicable, list methods of prevention and/or early diagnosis.
5. Aid clinicians with unknown clinical or pathologic presentations; formulate a prudent and reasonable differential diagnosis and treatment plan.

## Agenda:

5:30 PM – 6:30 PM

Light Dinner / Refreshments

6:45 PM – 8:45 PM

Challenging Case Presentations

\* Dinner will be provided.

*\*\* This Activity is co-sponsored by the University of Illinois at Chicago UIC, Northwestern University, Rush University Medical Center, University of Chicago, Loyola University Medical Center, and Cook County Health. The organizers from the respective institutions are Jennifer Lim, M.D., Jeremy Lavine, M.D., Ph.D., Matthew MacCumber, M.D., Seenu Hariprasad, M.D., Felipe de Alba, M.D., and Quraish Ghadiali, M.D.*
