

Department Publications 7/1/10-6/30/11

Rothschild L, Oswald S, Weinberg G. Intravenous Lipid Emulsion in Clinical Toxicology. *Scandinavian Journal of Trauma, Resuscitation and Emergency Medicine*. 2010, 18:51. (review)

Khatri K, Rothschild L, Oswald S, Weinberg G. Current Concepts in the Management of Systemic Local Anesthetic Toxicity. *Advances in Anesthesia* 28 (2010) 147-159. (book chapter)

Khan QS, Ozcan MS Disagreement in Bilateral State Entropy Values in Carotid Artery Disease *J Neurosurg Anesthesiol*. 2011 Jan;23(1):51-2

Ozcan MS, Ozcan MD, Khan QS, Thompson DM, Chetty P Does Nitrous Oxide Affect Bispectral Index and State Entropy When Added to a Propofol versus Sevoflurane Anesthetic? *J Neurosurg Anesthesiol*. 2010 Oct;22(4):309-15

T. Piegeler, G. Hu, E.G. Votta-Velis, RD. Minshall, D.E. Schwartz, K. Khatri, J. Aguirre, B. Beck-Schimmer, A. Borgeat Ropivacaine protects against ventilator-induced pulmonary capillary leakage (abstract). *European Society of Regional Anaesthesia & Pain Therapy (ESRA) Congress, held September 8-11, 2010 in Portugal*

Balyasnikova IV, Berestetskaya JV, Visintine DJ, Nesterovitch AB, Adamian L, Danilov SM. Cloning and characterization of a single-chain fragment of monoclonal antibody to ACE suitable for lung endothelial targeting. *Microvasc Res*. 2010 Sep 29.

Bern S, Kuo AI, Weinberg G. Lipid Resuscitation: A Life-Saving Antidote for Local Anesthetic Toxicity. *Curr Pharm Biotechnol*. 2010 Nov 4.

Danilov SM, Balyasnikova IV, Danilova AS, Naperova IA, Arablinskaya NE, Borisov SE, Metzger R, Franke FE, Schwartz DE, Gachok IV, Trakht IN, Kost OA, Garcia JG. Conformational Fingerprinting of the Angiotensin I-Converting Enzyme (ACE). 1. Application in Sarcoidosis. *J Proteome Res*. 2010 Oct 14.

Fedder C, Beck-Schimmer B, Aguirre J, Hasler M, Roth-Z'graggen B, Urner M, Kalberer S, Schlicker A, Votta-Velis G, Bonvini JM, Graetz K, Borgeat A. In vitro exposure of human fibroblasts to local anaesthetics impairs cell growth. *Clin Exp Immunol*. 2010 Nov;162(2):280-8.

Golembiewski J, Rakic AM. Opioids. *J Perianesth Nurs*. 2010 Aug;25(4):258-60. Review.

Golembiewski J, Rakic AM. Sublingual buprenorphine. *J Perianesth Nurs*. 2010 Dec;25(6):413-5.

Helmchen LA, Richards MR, McDonald TB. How Does Routine Disclosure of Medical Error Affect Patients' Propensity to Sue and Their Assessment of Provider Quality?: Evidence From Survey Data. *Med Care*. 2010 Sep 8.

Jericho BG, Ulanski L: Contralateral amaurosis after retrobulbar block for vitrectomy. *The Internet Journal of Anesthesiology (in press)*

Jin Y, Lee SJ, Minshall RD, Choi AM. Caveolin-1: a critical regulator of lung injury. *Am J Physiol Lung Cell Mol Physiol*. 2010 Nov 19. [Epub ahead of print]

Kundu A, Tassone R, Jiminez N, Seidel K, Valentine J, Pagel P. Attitudes, Patterns of Recommendation and Communication of Pediatric Providers About Complementary and Alternative Medicine in a Large Metropolitan Children's Hospital. *Clinical Pediatrics* 2010 Dec 2.

Maniatis NA, Balyasnikova IV, Metzger R, Castellon M, Visintine DJ, Schwartz DE, Minshall RD, Danilov SM. Reduced expression of angiotensin I-converting enzyme in caveolin-1 knockout mouse lungs. *Microvasc Res*. 2010 Sep;80(2):250-7.

McDonald TB, Helmchen LA, Smith KM, Centomani N, Gunderson A, Mayer D, Chamberlin WH. Responding to patient safety incidents: the "seven pillars". *Qual Saf Health Care*. 2010 Dec;19(6):e11.

Metzger R, Franke FE, Bohle RM, Alhenc-Gelas F, Danilov SM. Heterogeneous distribution of Angiotensin I-Converting Enzyme (CD143) in the Human and Rat vascular systems: Vessel, organ and species specificity. *Microvasc Res*. 2010 Dec 15.

Minshall RD, Vandenbroucke EE, Holinstat M, Place AT, Tiruppathi C, Vogel SM, van Nieuw Amerongen GP, Mehta D, Malik AB. Role of protein kinase C ζ in thrombin-induced RhoA activation and inter-endothelial gap formation of human dermal microvessel endothelial cell monolayers. *Microvasc Res*. 2010 Apr 24.

Paisansathan C, Xu H, Vetri F, Hernandez M, Pelligrino DA. Interactions between adenosine and potassium channel-related pathways in the coupling of somatosensory activation and pial arteriolar dilation.. *Am J Physiol Heart Circ Physiol* 2010 Dec; 299(6):H2009-17.

Weinberg G, Lin B, Zheng S, Di Gregorio G, Hiller D, Ripper R, Kelly K, Feinstein D. Partitioning effect in lipid resuscitation: further evidence for the lipid sink. *Critical Care Medicine* 2010 Nov;38(11):2268-9.

Weinberg G, Ripper R, Bern S, Edelman L, DiGregorio G, Feinstein, D. Pioglitazone attenuates acute cocaine toxicity in isolated rat heart: potential protection by metabolic modulation. *Anesthesiology (in press)*.
