Comments	_____ _____ _____		

- Data will be moved to "MRI Data [account]" (relative to root of sFTP login)
- Host computer has a **static external IP address**
- Host Computer must allow connections from **128.248.106.51**
- The same sFTP server can be used for multiple accounts. Each will have a unique directory.
- The CMRR does not provide support for setup or configuration of sFTP
