Announcements

Hello from your new Director of Medical Student Learning Environment (DMSLE). The DMSLE position was established to develop and implement policy, procedures and guidelines intended to foster a positive learning environment free from student mistreatment, and to provide students with access to a neutral and impartial resource to report learning environment concerns and seek assistance.

[Student Mistreatment Reporting Form](#) The online report form allows for mistreatment reporting with or without identifying information. Those reports will be reviewed by me, the DMSLE, within 2 business days of submission, to determine next steps. Individuals may also call or email me to discuss any learning environment issues and concerns (see contact information at the end of this message).

Please feel free to reach out to me with any of your learning environment questions and concerns.
