

Team-Based Advising Program for M1 Students
Faculty Advisors, OSA Academic Advisors and M1 students
Fall 2013 for Class of 2017

Program goal:

To establish a supportive community for M1 students attending the largest, most diverse medical school in the country by connecting them with a faculty mentor, an OSA advisor, and a small group of classmates

Objectives:

1. Meet in group sessions at least once per semester during M1 year. Scheduling of sessions will be handled by the OSA advisor in consultation with the faculty advisor.
2. Discuss professionalism, clinical training, career choices, CV development, and provide networking opportunities.
3. Provide academic guidance as needed, particularly related to career decision-making.
4. Continue to build a relationship with the OSA academic advisor from whom students receive one-on-one support and advising throughout the four years.
