RESEARCH

University of Illinois at Chicago 06/2016-Present
Ongoing original research and meta-analysis of endoscopic bariatric therapies, in collaboration with clinical researchers from Harvard.

University of Illinois at Peoria. 06/2013-06/2016.
Principal Investigator for IRB: A retrospective study evaluating 771 liver biopsies to evaluate lab values between stages of liver fibrosis leading up to cirrhosis.

Knox College, Illinois 09/2007 - 05/2008
Honors Research Participant, under supervision of Dr .Andrew F. Mehl PhD. Was Selected by biochemistry department chair to conduct Honors research. Created and analyzed E.Coli Internal Deletion Mutants via: Polymerase Chain Reaction, Circular Dichroism Spectroscopy, Thermal Unfolding Experiments, EDC Crosslinking Reactions, and Gel Filtration.
