3T MR Research Program

Subject: Research IRB/ACC Compliance

Policy: 9
Section: Research

POLICY

The 3T MR Research Program of the CMRR is not responsible for overseeing IRB and/or ACC compliance for each Principal Investigator's study or studies.

SPECIFICS

1. The PI is solely responsible for obtaining IRB and/or ACC approvals for any study that requires IRB and/or ACC approvals according to the University policy. The PI is also solely responsible for the governance over their approved IRB or ACC research.
2. It is the responsibility of the PI to maintain compliance and strictly follow the regulations set forth by the UIC IRB and ACC.
3. Upon the PI's request, the 3T MR Research Program of the CMRR will provide MR safety guidelines according to Federal, State, and local regulations.
