M4

Graduating M4 Students:

As you prepare to say goodbye to the UI College of Medicine, do you wish you could do something to make the learning environment better for future students? Here is your opportunity. I have set aside Thursday, May 4th from 10 AM till 5:00 PM, as open solely for graduating M4 students to come to my office and share with me your war stories, concerns, suggestions, and views on what and who made for a positive or negative learning environment. You can set up a specific time to meet with me or just drop in. The College is committed to creating an optimal learning environment for all students and, as such, your input has tremendous value. If you don't feel comfortable meeting with me in person, you may email or call me (see contact information below) or complete the [online mistreatment report form](#) (even if your experience did not involve mistreatment, you can complete and submit this form), which can be done in an anonymous manner. I truly want to hear from you.

Congrats on this amazing accomplishment and good luck in all your future endeavors!

Reneé R. McCarthy, J.D.

Director of Medical Student Learning Environment
