Name of Presentation

Your name

Faculty Sponsor:

Dates of IRB training (initial and HIPAA)
NOTE: There are multiple main title slides you can use - they are at the end of this presentation. You can also add a different photo in the slide master.

Time limits and number of slides are suggestions – your project may call for more methods slides, or more background slides. Talk to your research advisor about the best way to present your project.
BACKGROUND 1

• Review of the relevant literature
  – Focus on the BEST studies in this area (esp if the literature is vast)
  – A concise distillation of research studies that build the case for the need and the importance of your research question.

3-4 minutes, 3-5 slides
BACKGROUND 2

• Review of the relevant literature
  – A very concise distillation of research studies that build the case for the need and the importance of your research question.

1-2 minutes, 1-2 slides
STATEMENT OF THE PROBLEM

• After your review of the literature, what do you think we still don’t know? What do we still need to learn about this problem?

• If you are replicating another study, what are the previous limitations and how will you overcome them?

1 minute, 1 slide
RESEARCH OBJECTIVE/QUESTION

• Specific research question
• Hypothesis/hypotheses

1 minute, 1 slide
PROPOSED METHODS

• Study design - prospective, retrospective, experimental, cohort, case control, etc, and how the design fits the research question and indicate IRB approval.

• Inclusion/exclusion criteria of subjects

• Data collection techniques - chart review, direct observation, survey, etc.

2-3 minutes (2-3 slides)
PROPOSED ANALYSES

• Independent and dependent variables and measures of the variables
• Number of groups, number of subjects, power analysis/sample size calculation
• Proposed analysis of the data, including rationale for statistical tests chosen

1-2 minutes
NEXT STEPS AND TIMELINE

• What are your next steps in your research and what is the timeline you and your mentor have created?
QUESTIONS?
Swap in your own photos in the slide master or delete them
