

REQUEST FOR RESEARCH SUBJECTS

Xiaohong Joe Zhou, Ph.D.
IRB Protocol 2014-0995

The Center for MR Research – 3T Program is looking for volunteers to be imaged on our GE MR750 MRI Scanner. We are working on new MR imaging techniques to improve the quality of existing imaging strategies as well as reducing the overall scan time.

You may be eligible to volunteer for our research study involving taking pictures with our MRI scanner if you are

- Over 18 years old
- Have no metal implants
- Currently not pregnant
- Are not afraid of enclosed spaces

If you would like to volunteer, please contact Mike Flannery, Research Technologist by e-mail at mpflanne@uic.edu or by telephone at 312-996-1251.

This is voluntary. The total time is about 60 minutes for a single scan session.
