

## REQUEST FOR RESEARCH SUBJECTS

Xiaohong Joe Zhou, Ph.D.  
IRB Protocol 2016-0249

The Center for MR Research – 3T Program is looking for volunteers to be imaged on our GE MR750 MRI Scanner. We are focusing on imaging the pancreas within the abdomen and optimizing current scanning techniques.

You may be eligible to volunteer for our research study involving taking pictures with our MRI scanner if you

- Are between 18 and 65 years old
- Have no metal implants
- Currently are not pregnant
- Are not afraid of enclosed spaces
- Are healthy or have a known pancreatic lesion

If you would like to volunteer, please contact Mike Flannery, Research Technologist by e-mail at [mpflanne@uic.edu](mailto:mpflanne@uic.edu) or by telephone at 312-996-1251.

This is voluntary. The total time is about 60 minutes for a single scan session.

Version#1 1/15/16

*This flyer will also be used for email distribution and posted to our department website at <http://chicago.medicine.uic.edu/research/cmrr/cmrr3t>*
