

Center for MR Research – 3T

Policy 4: Subject: Internet Protocol (IP) Address

It is the policy of the Center for MR Research to secure all Patient/Subject information such that unauthorized access is not possible.

PROCEDURE

- A. An Internet Protocol Address may not be added or given to staff not specifically allowed access to Patient/Subject data as part of their normal duties.
- B. A non-Center employee may not have an IP address established without the written permission of the Director of the Center. A copy of the authorization with dates will be kept on file.
