

Center for MR Research – 3T

Policy 5: Research IRB/ACC Compliance

The 3T MR Research Program of the CMRR shall not be responsible to oversee IRB and/or ACC compliance for each Principal Investigator's study(s).

PROCEDURE

- A. The PI is solely responsible for obtaining IRB and/or ACC approvals for any study that requires IRB and/or ACC approvals according to the University policies. The PI is also solely responsible for the governance over their approved IRB or ACC research.
- B. It is the responsibility of the PI to maintain compliance and strictly follow the regulations set forth by the UIC IRB and ACC.
- C. Upon the PI's request, the 3T MR Research Program of the CMRR will provide MR safety guidelines according to Federal, State, and local regulations.
