

Center for MR Research – 3T

Policy 6: Research Equipment Storage

Research user groups may be allowed to store portable research equipment onsite, depending on space availability.

PROCEDURE

- A. The CMRR 3T Research Program may provide an area to store portable equipment (e.g., equipment cart) for research investigators, depending on space availability and subject to the following procedures and policies.
 1. The request must be submitted to and approved by the 3T MR Research Program.
 2. At 2242 Harrison Street, the University insurance policies do not cover equipment in the building.
 3. The 3T MR Research Program of the CMRR assumes no responsibility to theft or damage to any equipment left onsite.
 4. The research user group is responsible for locking up all equipment within the equipment cart.
