

Center for MR Research – 3T

Policy 12: MR Safety Training

It is the policy of the Center for MR Research to provide MR safety training to all new staff and research staff prior to allowing anyone to work within the Zone III and Zone IV MR environments.

PROCEDURE

- A. All new staff and research staff need to schedule a MR safety training session with Mike Flannery (mpflanne@uic.edu) before you may work within the Zone III and Zone IV MR environments at the MR Research Center.
- B. Training will take place onsite at the Harrison MR Research Center located at 2242 W. Harrison and will take approximately 30 minutes.
- C. Once training is completed, you will receive a copy of your MR Safety training certificate with the date of successful completion.
- D. MR Safety training will need to be completed on an annual basis in order to continue working within the Zone III and Zone IV MR environment at the MR Research Center.
