Department of Family and Community Medicine
College of Medicine
University of Illinois at Chicago

May 4, 2021

Dear Dr. Hasnain,

Congratulations! On behalf of the I TEAM awards committee, it is with great pleasure that we present the 2021 I TEAM award to the Interprofessional Approaches to Health Disparities Program at the University of Illinois-Chicago campus. The review committee had a challenging decision to make among multiple excellent applicants and in the end determined that there were two equally deserving awardees – and your program was one of those.

The committee identified multiple strengths of the program in choosing to give this award in our first annual award process. Among those strengths were a well-designed interprofessional educational experience, the use of the community based participatory research framework, a clear connection to UIC's mission and values and the long-term commitment of the program faculty to program evaluation and continuous improvement.

Your team should be very proud of this accomplishment and we look forward to hearing of future success!

Sincerely,

Mary T. Keehn, PT, DPT, MHPE
